GRAPE TO GLASS

This is the high intensity and in-depth course designed to train your palate and knowledge to a professional level. WSET 3 is also the natural next step after completing WSET 2 to take your passion for wine to new depths.

Dive into an intense exploration of the fundamental theory of grape growing and vinification from seed to glass.

You'll learn the best tried and tested method of wine assessment in the world. This will allow you to accurately taste, evaluate, describe and most importantly explain a broad range of styles and regions with a high level of credibility.
